

JOSEPH K ANOJ

Full stack Developer | CSE Bachelors of Technology | APJ Abdul Kalam Technological University

josephkanoj@gmail.com | +91 9744788125 | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

SUMMARY

Full Stack Developer proficient in **MERN Stack, Postgres, Typescript** and modern web technologies. Passionate about solving software engineering challenges, optimizing performance, and building scalable applications. Skilled in **UI/UX design**, backend development, **authentication systems**, and **API integration**.

EXPERIENCE

Freelance Developer

(10/2024 - present)

- Designed and developed UI and backend of a management application for a social media marketing client, resulting in a 15-25% increase in productivity.
- Designed and developed UI for an IoT based application using **React.js**.
- Designed the UI for a software product from concept to completion, focusing on usability and user experience.
- Developed a fully responsive, interactive website for a startup using Wix Studio and custom CSS.

Cuvette Tech – Full Stack Developer Intern

(01/2024 – 07/2024)

- Developed “Quizzie”, a **MERN**-stack Quiz maker application with pixel-perfect implementation based on **Figma** designs. Deployed using **Vercel** and **Render**.
- Built “Task Manager”, a MERN-stack application tailored to specified requirements, Designed and implemented a **RESTful** API to manage tasks and user data, with secure **JWT**-based authentication to ensure data protection.

Publicis Sapient – Associate Developer L1

(02/2022 – 12/2022)

- Contributed to front-end development for an **eCommerce** site on **SFCC** for an Australian client, enhancing **UI/UX**.
- Led the frontend design and development of a hotel management website with room reservation functionality and backend authentication.
- Participated in **code reviews** and collaborated with the team to ensure adherence to best practices.

EDUCATION

Computer Science Engineering – Sahrdaya College of Engineering and Technology

(2017 – 2021)

- Acquired foundational knowledge in programming languages including C/C++, Java, Python, and SQL.
- Worked on projects integrating Machine Learning (ML) and IoT technologies, including a **Cipher Home** project.
- Contributed to the development of an **Object Detection Project** leveraging Python and OpenCV.

PROJECTS

Workflow Builder :

- A **React Flow-based** application for creating, saving, and loading workflows via **Local Storage**. Used **Context API** for state management.

React Notes App, Notes App 2.0 :

- Designed and implemented a **React**-based notes app that stores data in local storage. Deployed using **GitHub Pages**.

Versa Hub :

- A **multi-functional web app** for **notes, weather updates, news, and movie recommendations**, using free APIs.

SKILLS

Programming Languages	:	JavaScript, Java, Python, C/C++
Frontend Technologies	:	HTML, CSS, JavaScript, React.js, JSX
Backend Technologies	:	MongoDB, Express.js, Node.js, Mongoose, RESTful APIs, Postgres
Version Control & Tools	:	Visual Studio Code, Postman, GitHub, React Developer Tools
